

INFRAFRONTIER GmbH - Job Advertisement

The **INFRAFRONTIER GmbH** is an academic non-profit organisation that is coordinating the pan-European activities of the INFRAFRONTIER Research Infrastructure. The international consortium of the **INFRAFRONTIER Research Infrastructure** provides access to first-class tools and data for biomedical research, and thereby contributes to improving the understanding of gene function in human health and disease, using the mouse model.

The INFRAFRONTIER GmbH is looking for a highly-motivated

Head of Unit m/f - INFRAFRONTIER Mouse Clinics

(full-time position), who will lead our activities in the development of phenotyping services.

Job description

- Lead INFRAFRONTIER Mouse Clinics unit
- Develop phenotyping services with the international INFRAFRONTIER Partners
- Define requirements and specifications for new services and the software features to support them
- Develop business plans and raise funds for services and training
- Manage user access procedures to phenotyping services
- Oversee standard setting and quality control, coordinate technology development and interface with informatics team
- Communicate with all internal and external stakeholders, organize and chair meetings, and network with relevant user communities
- Communicate services and activities through web portal and other PR channels

Your qualifications

- Scientist with PhD/MD or equivalent degree in the biosciences, preferably with knowledge of mouse functional genetics field
- Experience with research infrastructures, genetics data resources and bio-repositories, data analysis and reporting
- High willingness to assume responsibility and strong organisational or project management skills

- Strong communication skills (English and German)
- Ability to work closely with people in other disciplines and to develop and maintain effective working relationships
- Willingness to travel regularly to coordinate with the INFRAFRONTIER partners and other stakeholders
- At least 5 years of relevant experience

Our offer

- Working in an international and stimulating environment
- Leave your mark in a small and innovative team
- Further training opportunities
- Initial employment contract for two years with the option for extension
